**READ PROVERBS 25:2-7 OR 1 CORINTHIANS 2:1-10**

It is the glory of God to conceal things, but the glory of kings is to search things out. (Proverbs 25:2-3)

This is a time of global communications. The news of one nation is broadcast in another in no time at all. And the rulers of the nations are searching out things about other nations. Whatever is known in one part of the world soon becomes known everywhere else. Who has the wisdom to keep quiet?

Religion can teach the kindness, which, like the snow, hides all men. The thinker, Immanuel Kant, once said that he would not like to associate with anyone who did not have the grace to forget.

Remember the scene at which Jesus came to the rescue of the woman accused by the chattering crowd. As they found out the deeper implication of the Master's words, they all became quiet and one by one went away from the woman. The gentle spring shower is quiet, but is gracious enough to cause all animate nature to grow. Our Father, who is in secret, good and will reward its deep openness.

**PRAYER**

O God, Thou art invisible and Thy voice is inaudible. Teach us to spare such words as would wound our friends' hearts, leaving them injuries which may take years to heal. Guide us to follow Thy way through Christ our Lord, Amen.

**THOUGHT FOR THE DAY**

We deepen our discipleship by forgiveness and love.

The 53rd annual Florida State Fair will be held in Tampa Feb. 4 through Feb. 15 with the final week featuring Tampa's famed Gasparilla Pirate Festival.

These dates for the 1958 presentation of a great panorama displaying Florida's progress in agriculture, industry, commerce and culture, were announced by Carl D. Bruner, president of the Florida State Fair & Gasparilla Association, Inc.

Featured during the eleven days and nights of the Fair's run will be special events of every variety including auto races, thrill shows and spectacular free grandstand entertainment by nationally known personalities and troupes.

Educational value of the Fair to Florida's residents and visitors alike is being emphasized more than ever in 1958, said Bruner. He cited new features planned for the elaborate Art Exhibition to be held in the new art center, and expanded commercial and industrial shows now being arranged.

it easy, because it just doesn't work that way.

## Costume Designing For "Flying High" Is A Part Of Each Performer's Job

There are tricks in every trade and Coach Jack Haskin of Florida State University has quite a few up his sleeve when it comes to costume designing. In nineteen years of amateur circus work, the professor of men's physical education has had to learn a great deal about costume design. And he's employed every trick in designing the breath-taking wardrobe being used in the FSU annual circus.

Haskin and his crew of costume designers — all of whom are circus performers as well as art students at the University — have been working all year in getting together the costumes for the 200 circus performers.

"The basic rules for good costumes apply to the wardrobe of any woman who wants maximum effect at minimum cost," says Haskin.

Clothes are first designed with a specific purpose in mind. The girl who does a back shirl on a revolving trapeze bar needs protection for her back. So her costume, while it boasts a bare midriff in front covers her back from shoulders to waist.

"The average man now lives twice as long as he did in 1896. He HAS to get his taxes paid!"

## Glades Schools Sweep Contest

East Lake Elementary at Pahokee has been awarded the Stevens trophy among junior high schools in the Palm Beach County Health and TB Assn. poster contest.

Glades schools swept all honors in this county-wide contest. Lake Shore High School won the senior high division while Rosenwald won the elementary school division for the third straight year.

## US Sugar Wants Cane Workers Now

Work is available for those who want it, states J. W. Mosley, acting manager of the state employment office here. Negro male workers can be placed in citrus, cane and celery fields. There are jobs of one kind or another, he declared.

U. S. Sugar Corp. officials told Mosley that they can use workers. They want their laborers to live in sugar camps; however, they will provide transportation to and from work for those who can't live in on-farm camps.

Male workers 19-50 years old in good physical condition can earn 65 cents an hour with a six-day week. The work is hard, without doubt, but it is available and most growers do not expect much other work to be available in any great quantity before Mar. 1.

Mosley said 25 workers had been referred to the sugar company in the past few weeks. The longest any one of them worked was one week. In one

incident, five workers, after passing the required physical, failed to appear for work on two successive days. The company truck driver presumed they did not wish to work and quit stopping for them.

Every effort is being made to place workers in some type of work until the vegetable harvest begins. This includes some requests for maids. Workers seeking employment may visit the employment office at 41 SE Avenue D or see field representative Calvin Clay at his sub-office at 527 SW Avenue C. Place across from the labor loading zone.

## Devils Down Cats In Close Battle

The Lake Shore Bobcats suffered their third defeat in nine starts Monday night when they dropped a thriller to the Maroon Devils of Rosenwald High at West Palm Beach, 45-44. The tide turned in the last 120 seconds of the game after the Bobcats had led all the way.

Northwestern of 18 points and Eddie Gainer got 16 to lead the Cats.

Belle Glade's three losses were by a total of five points. This year they scored a decisive victory over Northwestern of Miami, 45-38. That school is one of the top teams in the state, having been winner in the Milton Invitational tourney at Tampa for Class A schools.

The Bobcats face Northwestern again tonight and Carver of Delray Beach Monday. There will be a slight increase in admission at the games.

## Gordon Pleads Guilty

Dealing with the students in the first and second grades, Miss Quaw presented a movie and distributed brochures on dental care.

Classroom teachers and students' contributions to the March of Dimes continue to mount, states Principal Getchell Singleton, and at the present rate, last year's record of \$84.20 may be topped.

Miss Cora L. Scott, itinerant music teacher for Glades area schools, left Wednesday to attend the three-day music clinic at Florida A. M. College at Tallahassee.

The clinic, sponsored jointly by the Florida State Music Educators Association and the FAMC music department, is being held Jan. 30-Feb. 1.

## W. C. Taylor Named To Heart Fund Drive

W. C. Taylor, Belle Glade, has been named area chairman of the 1958 Heart Fund campaign, according to an announcement by P. C. Prior, county chairman. In making the announcement, Prior pointed to the fact that 650,000 deaths per year in the nation are caused by heart disease. This staggering number may some day be reduced through heart research and therapy. Funds are needed to carry on this work. Further details will be announced later.

## Bryant School Loses First Net Battles

Bryant Elementary, in their first year of competition, is beginning to show tremendous improvement. They opened against a seasoned Pahokee squad with the girls being shaded by five points and the boys dropping their game 32-18.

Their game with Clewiston saw the boys lose by 12 and the girls by the familiar five points. Their last game with Moore Haven ended in a 16-10 loss for the boys with Theodore Jackson as top scorer, but the girls overcame the jinx to win 16-17. Elise Hamilton led the attack.

Bryant tackles Pahokee Jan. 30, Moore Haven on Feb. 3 and Clewiston Feb. 7.

## Rock-N-Roll Hop Is Nearly Flooded Out

The rock-n-roll hop sponsored by the Okeechobee County Youth Council Jan. 23 was rained out in part. Approximately 30 youngsters got in before the downpour started.

The hop, which lasted from 6 to 10:30 p.m., was highlighted by a dance contest. Prizes for the contests were donated by the Hollingsworth Shoe Store, Belle Glade. Records were supplied by WSWN.

Proceeds of the event will be used to purchase basketball uniforms for four teams presently being formed at the Okeechobee Center. Chairman of the program is Reverend William Brooks with George S. McKay and Harvey Poole, Sr., as co-ordinators.

## Rehearsals Commence

The faculty at East Lake Elementary School has begun rehearsals of their annual dramatic presentation; this year's offering, "Aaron Slick From Pumpkin Creek", and the time, place and date for the presentation will be announced later.

## SWEET CORN GROWERS . . .

## Practice the 4R's to stop leaf blight

**RIGHT MATERIAL** Du Pont "Parzate" powder or liquid, effective controls Helminthosporium leaf blight on sweet corn.

**RIGHT AMOUNT** For "Parzate" powder, 2 pounds per 100 gallons should be used. The correct mixture for "Parzate" liquid is 2 quarts, plus 1/4 pound zinc sulfate per 100 gallons.

**RIGHT WAY** Make sure that both sides of leaves are thoroughly covered. If applied improperly, even the best fungicide will be wasted.

**RIGHT TIME** Spray over 5 to 7 days. If disease situation in area is critical, spray more often.

"Parzate" makes a superior dust because of its fine particle size. Dusts should be used only when time or field conditions do not permit spraying. Sprays give superior disease control and resist washing off.

On all chemicals, follow label instructions and warnings carefully

## The Truth About Air Ride

-and why it's better

in a Buick

Every window of every Buick is built to last.

Most cars have always used horizontal leaf springs. Some use horizontal torsion bars. For 2 decades, Buick has used nothing but upright coil springs at all 4 wheels for better, softer cushioning. And to get the most out of these buoyant upright springs—to bring additional solidity, balance and stability to the ride—Buick developed a new kind of chassis. This exclusive Buick chassis has the rugged roadability of a massive X-braced frame and the true-tracked steadiness of Buick's Rotoflow Torque-Tube Drive. Developed and perfected by 20 years of experience with upright springs, Buick's Miracle Ride Chassis today turns out to be a "natural" for replacing upright coil springs with upright air springs. It's this exclusive chassis engineering experience that gives you Buick the smoothest, most advanced, most experienced air ride\* in the world.

\*Buick air ride optional at extra cost on all Series.

Now—more than ever—when better automobiles are built Buick will build them
